June 9, Monday, Fourth Quarterly Written Examination.

June 16, Monday, Commencement Day during this week. Competitive Examinations for Scholarships for years beginning 1902-1903.

La Salle College

Broad Street above
Girard Avenue

LA SALLE COLLEGE is conducted by the Brothers of the Christian Schools, a body of men devoted exclusively to the cause of Christian education. Their aim is to educate under the most approved modern methods in an environment which insures the safeguards of religion. Their methods of teaching have been successful in all parts of the civilized world and in every grade of school. These methods have been handed down to them from their founder, St. John Baptiste de la Salle, and perfected by the experience of two centuries. The Brothers have, in consequence, reduced teaching to a science. Christian educators, it is their great aim, not merely to broaden the intellect, but chiefly to cultivate the heart and to mould the Christian gentleman.

HISTORY

In 1863, the late Most Rev. James Frederick Wood, D. D., then Bishop of Philadelphia, in conjunction with a committee of Christian Brothers, Reverend Clergy and laymen, obtained from the State of Pennsylvania a charter incorporating La Salle College in Philadelphia.*

The aim was to supply, within the limits of Philadelphia, the want of a College for higher Catholic education.

The nucleus of La Salle College had already been formed in September, 1862, as the Christian Brothers' Academy attached to St. Michael's Parochial School, at 1419 North Second Street. When the number of students became too large for the accommodations of the building in Second Street, the property at the north-east corner of Filbert and Juniper Streets was bought in 1867, and the classes continued there until June, 1886.

Owing to the constant increase in the number of pupils, the College was forced to seek for more extensive grounds. The Bouvier Mansion on Broad Street above Girard avenue, was acquired in December, 1882. In the following September, the Academic and the Preparatory Departments of the College were transferred thither, and on the completion of the school buildings the Collegiate and the Commercial Department were removed to the present location.

*An act to incorporate the La Salle College in the City of Philadelphia, Pa., approved March 20, 1863.

LOCATION

The location of La Salle College, on Broad Street above Girard Avenue, is perhaps unsurpassed in Philadelphia. Sufficiently remote from the highroads of business, it is at the same time easy of access from any part of the City. The school buildings have been constructed on modern lines and are commodious, well lighted, heated and ventilated. The Class-rooms are thoroughly equipped with all the necessary appliances.

DIVISIONS OF THE YEAR

The scholastic year is divided into four terms, or quarters. The first begins on the second Monday of September; the second, on the third Monday of November; the third, on the first Monday of February; and the fourth, on the third Monday of April.

COLLEGE RULES

All students should be present at 8.45 A. M.

No student is allowed to leave the College grounds during the noon recess, without permission from the College authorities.

No interruption is permitted in class studies except for grave reasons.

No one may leave the class before 2.30 P. M. without a valid excuse in writing from the parent or guardian. This permission is given by the President on the approval of the teachers in charge.

Lessons omitted on account of absence will be regarded as failures unless made up outside of school hours.

No student will be allowed to drop any subject obligatory in the course which he is pursuing.

Absence from an examination, unless excused by the Faculty, will be considered a failure.

The President of the College reserves the right to determine all questions relating to athletics. Membership in the athletic associations, as well as admission into the gymnasium or play grounds after class hours, is conditional on a satisfactory standing in class studies.

All injury done to the property of the College must be repaired at the expense of the student who caused such damage.

As the College is intended to educate only respectable youths of good behavior, no student will be retained who persists in being insubordinate, or who is known to indulge in vicious habits.

EXAMINATIONS

Written examinations on the matter studied in the classes take place at the end of each quarter. No student, who, in two consecutive examinations, falls below the general average of 60 per cent, will be permitted to continue in a class.

In the Preparatory classes examinations are more frequent, and no student is allowed to pass from one subject to another until he has given evidence of an adequate knowledge of the subject-matter he has gone over.

REPORTS

A quarterly bulletin, based upon the written examinations, and signed by the President of the College, is sent home at the expiration of each quarter. From this bulletin parents can learn what progress their children are making and whether they devote a sufficient time at home to the preparation of their class work.

Percentages are appreciated as follows: From 100 to 90, excellent; from 90 to 75, very good; from 75 to 60, satisfactory. Any percentage below 60 is to be considered deficient.

TESTIMONIALS

Testimonials of merit are given each week; those of the first grade, called "Perfect," to students whose general average is 80 per cent or over; and those of the second grade, called "Satisfactory," to those whose average in the recitations of the week is between 70 and 80 per cent.

As these Testimonials are an unfailing source of emulation, we earnestly desire parents and guardians to see that these Testimonials be presented to them each Monday afternoon.

CLASS STANDING AND PROMOTIONS

The final class-standing of each student is determined by his examination results, together with the average of his year's class-marks in each subject.

A student failing in some of the branches of his class at the examinations, may present himself for further examination, before the opening of the next college year. If this September examination be successful he will be entitled to promotion with his class.

ATTENDANCE

Parents and guardians are respectfully reminded that regular attendance and strict punctuality are absolutely necessary in order to insure the student's success. Whenever a student is detained through sickness or other imperative reason, he is required to acquaint the President by a timely note of excuse.

The school hours are from 8.45 A. M. to 2.30 P. M. A half hour is set apart at noon for luncheon.

HOME STUDIES

Great industry is required for success in life. The student's individual efforts count much more than the zeal, earnestness, and enthusiasm of the teacher in the formation of those habits which make the successful man.

No time is allowed for the preparation of lessons during the school-day's session. Parents should see that the assigned class-lessons are prepared at home.

In order to attain proficiency in the several branches taught in the College, the student should devote at least two hours every day to the earnest preparation of his home studies. In the higher classes, much more time is required for this preparation. Parents and guardians are requested to communicate with the President whenever this preparation is neglected.

MEDALS AND PRIZES

Gold medals are offered in the Collegiate Course for English Essay, Oratory, Evidences of Religion, Physics and Chemistry, Mechanical Drawing, Mathematics, and for general excellence in examinations in the Junior, Sophomore and Freshman classes.

Medals are awarded in the Academic Department for Elocution, and for excellence in examinations in the respective classes.

No medal is awarded when the highest average of the competitors falls below 80 per cent.

Medals and special prizes alone will be awarded at the Annual Commencement.

Other class awards based on the Weekly Testimonials for class-work will be distributed in the class rooms on the eve of Commencement Day.

DEGREES

In 1863, the College was incorporated as La Salle College in the City of Philadelphia, and empowered to confer the degrees of A. B., B. Sc., A. M., and such other degrees as are now conferred by the other colleges of the State.

The Degree of Bachelor of Arts is conferred upon students who have made the regular College course, and have attained a minimum average of 70

per cent in the examinations and daily recitations in the studies of the Senior Year.

The Degree of Bachelor of Science will be conferred on students who successfully complete the course in Chemistry and Electricity, or the course in Civil Engineering.

A Diploma is granted to students who satisfactorily complete the Commercial Course, as a guarantee of their fitness for mercantile employment.

The Degree of Master of Arts is conferred upon those graduates who shall have matriculated in one of the learned professions, or pursued a post-graduate Course at the College, or given evidence of proficiency in some branch of letters or science, provided they have borne a good moral character in the interval. They will also be expected to write on a given subject, a thesis which may be made the Master's Oration at the Commencement, if the Faculty so decide, and a copy of which shall be left in the College.

Honorary degrees are given at the discretion of the Faculty.

THESIS

Every candidate for a degree is required to present a written thesis on a subject connected with his course. The subject selected will be announced by the Professor of the class to which he belongs, on or before February 3rd. Such help and guidance may be offered the candidate as the Professor shall judge right, and the completed thesis shall be handed in for approval on or before May 12th.

No thesis shall contain less than two thousand words, unless the reasons adduced are satisfactory. Theses must be typewritten. All approved theses become the property of the College and are placed in charge of the Librarian.

If a student fail to present his thesis, or if the thesis be rejected, he shall not be recommended for his degree.

SCHOLARSHIPS

Four Scholarships affording free tuition at La Salle College from September, 1901 to 1906 are open to competitive examination on September 6th, 1901. These scholarships have been provided in favor of deserving pupils of the Catholic Parochial Schools who are otherwise eligible for such selection.

A note of recommendation from the Rev. Rector of the parish church is required of each candidate.

These scholarships have been founded by :—

I. The Most Reverend P. J. Ryan, D. D., LL. D.

II. The Honorable William F. Harrity, class of '69, A. M., '71.

III. Two gentlemen who have not yet permitted the publication of their names.

The examination to determine the awarding of these scholarships will cover:

English Grammar.

A composition on a given subject.

Mathematics—Arithmetic complete.

Algebra, including Simultaneous Equations of the First Degree.

Mensuration of Surfaces.

United States History.

Geography. Maury's Manual or an equivalent.

FEES

Collegiate Department, per quarter	$20 00
Commercial Department, "	20 00
Academic Department, "	20 00
Preparatory Department, "	15 00
Gymnasium, per year.....	5 00

INCIDENTAL EXPENSES

Lunch at College, per quarter.....	10 00
Piano or Violin, per quarter.....	15 00
Violin, in classes of at least three, per quarter	10 00
Use of Chemicals, per year.....	5 00
Use of Typewriter, per year.....	5 00
Graduation Fee	10 00
Certificate Fee	5 00

Books and stationery at current prices.

The tuition bills are payable quarterly in advance.

Students may be entered at any time during the year, and are classified according to proficiency.

No deduction is made for a student who withdraws during the quarter except for sickness or dismissal.

General Prospectus of Studies

The course of studies at La Salle College is comprehensive and logically graded.

The College offers three departments of study that are a necessary preparation for various walks of life.

I. The Course in Arts which leads through modern languages to the Degree of Bachelor of Arts.

II. (*a*) The Course in Chemistry and Electricity.

(*b*) The Course in Civil Engineering; both of which lead to the Degree of Bachelor of Science.

COMMERCIAL DEPARTMENT

The Commercial Department provides for the wants of young men who intend to engage in mercantile pursuits. All the subjects considered necessary for a comprehensive modern business training are included in the curriculum. To these are added a course in Chemistry as applied to the industries and manufactures, a course of General Mathematics and Physics.

ACADEMIC DEPARTMENT

Besides the College proper, there is an Academic Department. The course requires four years and prepares the student for the Freshman class. The grade of work is that of the ordinary High

School, and requires a well-grounded Grammar School course. From this department the student may enter the College course or take up the advanced subjects of the Business course.

PREPARATORY DEPARTMENT

In the Preparatory Department are combined with the studies usually taught in the best grade of Grammar Schools, all the advantages of the Select School. It prepares for the Academic Department.

CHRISTIAN DOCTRINE

Since the College is conducted by a religious congregation, every attention is bestowed on the moral and religious training of the students. Christian doctrine is taught in all the Collegiate, Commercial, Academic and Preparatory classes. The course in Religious Instruction is as carefully graded as in the other branches of knowledge.

It is chiefly on moral influence and kindly advice that the College authorities rely to secure propriety of behavior and diligence in study.

PHILOSOPHY

As the ultimate end in the study of Logic is to train the mind to exactness of Thought, the first part of the Junior Year is devoted to this branch of the subject. The history and origin of Speculative Thought together with the laws by which it is governed are thoroughly investigated, thus preparing the student to take up, in the latter portion of the year, the study of Mental Philosophy.

The Senior Year is devoted to the Study of Ethics and Psychology. The student is trained to apply the formulæ and the methods of right reasoning to the mooted questions of the day, to correlate the results of approved investigations and researches and to co-ordinate them with their basic principles.

STUDY OF ENGLISH

Since the vernacular language and literature constitute the essential features of a sound education they receive special attention. No effort is spared to make the student proficient in speaking and writing the English language.

SCIENCE

The great importance of science subjects in a system of instruction which aims at being in accordance with the trend of modern ideas has been carefully kept in view. By them, habits of observation and an exactness of reasoning are developed which literary studies alone cannot give.

ORATORICAL CONTESTS

These contests, which are an important feature of the school year, do much to develop in the student literary and elocutionary taste. Besides the private contests at the end of each quarter, a public contest is held by the Senior and Junior Divisions, respectively. The Archbishop Ryan Gold Medal is open to the students of the Collegiate and Commercial Departments. This contest is held towards the end of April, and the three pupils obtaining the highest average compete again on Commencement Day.

A Gold Medal for Elocution is given in the Academic and a special premium in the Preparatory Department.

PHYSICAL CULTURE

Aware of the importance of physical training, and the part it plays in the harmonious development of the entire man, the Faculty spares no pains to secure for the student all the benefits to be derived from approved modes of exercises. A graded course of Gymnastic exercises is pursued throughout the year under the direction of a distinguished Professor of physical culture. The Students have a regularly organized Athletic Association which encourages approved athletic sport of every description.

THE STUDENTS' LIBRARY AND READING ROOMS

A select library of standard authors and periodicals is set apart for the use of the students. The reading room is open at stated times to enable them to consult authorities in the preparation of their theses, or to become acquainted with representative writers.

COLLEGIATE DEPARTMENT

SENIOR CLASS

Mathematics. Differential and Integral Calculus. Mechanics.

German. Karsten's Deutsche Literaturgeschichte. Gore's German Science Reader. Wenckebach's Die Meisterwerke des Mittelalters. Goethe's Iphigenie. Lessing's Nathan der Weise—Conversation and Essays

French. Composition—Corneille's Le Cid or Horace. Moliere's Le Medecin Malgre Lui or Le Misanthrope. Racine's Phedre or Athalie. Fenelon's Telemaque. La Bruyere's Les Caracteres.

Philosophy. Brother Louis's Special Metaphysics —Cosmology, Psychology, Theodicy.

Ethics.—Human Actions, Natural Law, Individual Law, Social Law, International Law.

History. Schlegel's Philosophy of History.

Literature. Brother Azarias's Philosophy of Literature. Brother Azarias's Phases of Thought and Criticism. Schlegel's Dramatic Art and Literature.

English Classics. Shakespeare's Hamlet. Macaulay's Essay on Byron. Milton's Lycidas and Hymn on the Nativity.

Elocution.

Religion. Evidences of Religion, Part I., or Bowden-Hettinger's Natural Religion.

Political Economy.

JUNIOR CLASS

Physical Science. Organic Chemistry. Laboratory Work. Astronomy.

Mathematics. Higher Equations. Analytical Geometry. Differential Calculus.

Linear Drawing. Linear and Isometrical Perspective. Stereotomy. Stone-cutting. Arches, Vaults, &c., from actual measurements of structures.

English Literature. Brother Azarias's Old English Period. Brother Azarias's Philosophy of Literature. Brother Azarias's Books and Reading.

English Classics. Macbeth. The Tempest. Milton's Minor Poems. Tennyson's In Memoriam. Newman's Dream of Gerontius.

Essays. With a view to cultivate a style suitable to Orations.

History. Sanderson's Ancient, Part I., completed.

Mental Philosophy. Brother Louis's Logic, Formal and Applied.—Dialectics. Methodology, Idealogy, Motives of Certitude.

General Metaphysics. Brother Louis's.—Idea and Analogy of Being. The Transcendentals. Principles and Causes of Being. Division of Being.

German. Freytag's Soll und Haben. Schiller's Die Jungfrau von Orleans. Gœthe's Poems. Hodge's Scientific German Reader. Wenckebach's Deutsche Literaturgeschichte, Vol. I. Conversation on Familiar Topics.

French. Edgren's French Grammar. Fortier's Historie de la Litterature Francaise. Moliere's L'Avare. Lamartine's Jeanne d'Arc. Halevy's L'Abbe Constantin. About's Le Roi des Montagnes.

Elocution.

Religion. Evidences of Religion, Part II., or Bowden-Hettinger's Revealed Religion.

SOPHOMORE CLASS

Science. Inorganic Chemistry. Physics — Electricity. Optics.

Linear Drawing. Descriptive Geometry. Projection, Intersection, Development and Construction of Solids. Shades and Shadows. Applications to domestic constructions and to the Grecian and Roman Orders of Architecture.—Topographical Drawing.

Mathematics. Algebra, completed. Trigonometry, Plane and Spherical. Surveying. Navigation.

English. Rhetoric, completed.

English Literature. The Christian Brothers', completed.
Word Study. Trench's English Past and Present.

English Classics. Shakespeare's Merchant of Venice, Othello, King Lear. Tennyson's Holy Grail. Canterbury Tales.

Essays. General Subjects.

History. Sanderson's History, Part II., or Fisher's Mediæval.

German. Joynes-Meissner's Grammar. Prose Composition. Baumbach's Der Schwiegersohn. Bernhardt's Aus Herz und Welt. Benedix's Die Hochzeitreise. Schiller's Maria Stuart or Das Lied von der Glocke. Lessing's Minna von Barnhelm. Colloquial Exercises.

French. Edgren's French Grammar, Syntax. Grandgent's French Exercises, and Prose Composition. Jules Verne's L'Expedition de la Jeune Hardie. Bruce's Selections for Sight Translation.

Elocution.

Religion. Schouppe's Religious Instruction, completed.

FRESHMAN CLASS

Physical Science. Avery's Physics. Overton's Physiology, advanced course.

Mathematics. Wentworth's College Algebra, to the End of Progressions. Wentworth's Geometry, Plane and Solid.

Linear Drawing. Orthographic Projections. Tinting and Grading. Applications to Parquetry and Paving. Elevation of Joinery Work. The Christian Brothers' Method.

English Rhetoric. Scott and Denney's Composition and Rhetoric.

English Classics. Scott's Lady of the Lake. Bryant's Thanatopsis. Burke's Warren Hastings. Macaulay's Essay on Milton.

Essays. Subjects from English Classic Studied.

Literature. Modern Period, The Christian Brothers' Literature.

History. Constitutional History of the United States. Sanderson's History, Part II.

Elocution.

German.—Joynes-Meissner's Grammar. Prose Composition. Baumbach's Die Nonna. Schiller's Der Neffe als Onkel. Colloquial Exercises based on the Texts read.

French. Muzzarelli's Second Year's Course. L'Histoire d'un Paysan. Muller's Les Grandes Decouvertes Modernes.

Religion. Schouppe's Religious Instruction, Dogma, or Fra di Bruno's Faith of Catholics.

Commercial Department

First Commercial Class

English. Raub's Rhetoric.

Composition. Commercial Correspondence. Weekly Essays.

Elocution.

Arithmetic. The Christian Brother's Complete Arithmetic, general review. Supplementary Work. Mental Arithmetic.

Algebra. Fisher and Schwatt's School Algebra, completed.

Bookkeeping. Banking. Railroading. Business Processes.

Commercial Law. The Christian Brothers' Manual completed.

German. Joynes-Meissner's Grammar. Arnold's Fritz auf Ferien.

Phonography. Reporting Style, Pitman and Howard.

Typewriting. Speed Practice.

Christian Doctrine. Deharbe's No. 1, completed.

Chemistry. As applied to Industries and Manufactures.

SECOND COMMERCIAL CLASS

English. The Christian Brother's Principles of Grammar, chiefly Syntax.

Orthography. Williams and Rogers's Seventy Lessons in Spelling.

Reading. Lamb's Tales from Shakespeare. Longfellow's Evangeline.

Composition. Business Letters and Epistolary Correspondence. Monthly Essays.

Elocution.

Geography. Maury's Manual of Geography, completed.

Arithmetic. The Christian Brothers' Complete Arithmetic, Equation of Payments to the End. Promiscuous Examples. Mental Arithmetic.

Mensuration. The Christian Brothers' Mensuration, Superficies and Volume of Solids.

Penmanship. The Christian Brothers' System. Sadler and Rowe's Freehand Exercises.

Bookkeeping. The Sadler-Rowe System.

Commercial Law. The Christian Brothers' Manual.

Phonography. Corresponding Style, Pitman and Howard.

Typewriting. Correct Fingering.

German. Joynes-Messner's Grammar. Hillern's Hoeher als die Kirche.

Christian Doctrine. Deharbe's No. 1.

PREPARATORY COMMERCIAL CLASS

English. The Christian Brothers' Principles of Grammar.

Orthography. Williams and Roger's Seventy Lessons in Spelling.

Reading. Irving's Sketch Book. Scott's Lady of the Lake.

Composition. Reproductions. Paraphrases. Letter Writing.

Elocution.

History. Barnes's History of the United States. Study of the Constitution of the United States.

Geography. Maury's Manual of Geography.

Arithmetic. The Christian Brothers' Complete Arithmetic, Percentage to Equation of Payments. Speed Practice. Mental Arithmetic.

Mensuration. The Christian Brothers' Mensuration, Surfaces.

Penmanship. The Christian Brothers' System. Sadler and Rowe's Freehand Exercises.

Bookkeeping. The Christian Brothers' Manual, Single and Double Entry. Practice in Writing the various Business Forms in connection with each Set.

Phonography. Pitman and Howard's Manual of Phonography.

German. Ahn's First Course.

Christian Doctrine. Deharbe's No. 2.

Academic Department

First Academic Class

English. Scott and Denney's Composition and Rhetoric.

English Classic. Irving's Alhambra. Coleridge's Ancient Mariner. Longfellow's Evangeline.

Composition. Descriptions. Character Sketches.

Elocution.

Geometry. Philip and Fisher's, Books III to VI.

Algebra. Fisher and Schwatt's School Algebra.

History. Sanderson's, Part II.

Geography. Maury's Physical Geography.

Drawing. Elementary Mechanical. Use of Instruments. Geometrical Problems. Lettering. Plans. Elevations.

Science. Avery's Physics.

Christian Doctrine. Deharbe's No. 1, completed. Bible History.

Penmanship. Sadler and Rowe's Freehand Exercises.

Bookkeeping. The Christian Brothers' Manual, completed.

German. Joynes-Meissner's Grammar. Volkmann's Kleine Geschichten, Hillern's Hoeher als die Kirche.

French. Muzzarelli's First Year's Course. Maistre's Voyage autour de ma Chambre.

Second Academic Class

English. The Christian Brothers' Principles of English Grammar, completed.

English Classics. Hawthorne's Wonder Book. Goldsmith's Traveller.

Composition. Scott and Denney's Elementary Composition. Narratives. Descriptions.

Elocution.

Arithmetic. The Christian Brothers' Complete Arithmetic, reviewed. Mental Arithmetic.

Geometry. Philip and Fisher's, Books I and II.

Mensuration. The Christian Brothers', Solids.

Algebra. Fisher and Schwatt's Rudiments of Algebra, completed.

History. Constitution of the United States. Civil Government.

Geography. Maury's Physical Geography.

Drawing. Ornamental. Sketching from the Object.

Christian Doctrine. Deharbe's No. 1.

Penmanship. The Christian Brothers' System.

Bookkeeping. The Christian Brothers' Manual, Single Entry.

German. Ahn's Second German Course.

Third Academic Class

English Grammar. The Christian Brothers' Principles of English Grammar.

Reading. The Christian Brothers' Advanced Reader.

English Classics. Hawthorne's Twice-Told Tales. Goldsmith's Deserted Village.

Spelling. Williams and Roger's Seventy Lessons.

Composition. Letter Writing. Simple Narratives.

Arithmetic. The Christian Brothers' Complete Arithmetic, completed Mental Arithmetic.

Algebra. Fisher and Schwatt's Rudiments of Algebra, to Involution.

Mensuration. The Christian Brothers' Mensuration, Surfaces.

History. Barnes's History of the United States, Civil War to the Present Time.

Geography. Maury's Manual of Geography, completed.

Elocution.

Drawing. Ornamental. Pen and Ink Work.

Penmanship. The Christian Brothers' System.

German. Ahn's First German Course.

Christian Doctrine. Deharbe's No. 2.

FOURTH ACADEMIC CLASS

English Grammar. The Christian Brothers' Principles of English Grammar.

Reading. The Christian Brothers' Advanced Reader.

Spelling. Williams and Roger's Seventy Lessons. Dictations.

English Classics. Brown's Rab and His Friends. Edgeworth's Waste Not, Want Not.

Composition. Reproduction from Subjects Read. Letter Writing.

History. Barnes's History of the United States, to the Civil War.

Geography. Maury's Manual of Geography.

Arithmetic. The Christian Brothers' Complete Arithmetic, Interest to Equation of Payments. Mental Arithmetic.

Mensuration. The Christian Brothers' Mensuration, to the Circle.

Algebra. Fisher and Schwatt's Rudiments, The Four Rules.

Drawing. Ornamental.

Penmanship. The Christian Brothers' System, Nos. 8 and 9.

Elocution.

Christian Doctrine. Deharbe's No. 2.

Preparatory Department

FIRST PREPARATORY CLASS

English Grammar. The Christian Brothers' Principles of English Grammar.

Reading. The Christian Brothers' Advanced Reader.

Spelling. The Christian Brothers' Pronouncing Speller. Daily Dictations.

English Classic. Grimm's Tales.

Composition. Selections from Readings, reproduced.

History. Outlines of United States History.

Geography. Maury's Elementary.

Arithmetic. The Christian Brothers' Complete Arithmetic, Percentage to Interest. Mental Arithmetic.

Drawing. Simple Ornaments.

Elocution.

Penmanship. The Christian Brothers' System, Nos. 6 and 7.

Christian Doctrine. Deharbe's No. 3.

Second Preparatory Class

Reading. The Christian Brothers' Intermediate.

Spelling. The Christian Brothers' Pronouncing Speller. Dictations.

English Grammar. The Christian Brothers' First Lessons.

English Classic. Thaxter's Stories and Poems for Children.

Composition. Selection from Reader or Classic, reproduced.

History. Primer of United States History.

Geography. Maury's Elementary.

Elocution.

Drawing. Outlines of Simple Ornaments.

Arithmetic. Decimals and Compound Numbers. Mental Arithmetic.

Penmanship. The Christian Brothers' System, Nos. 4 and 5.

Christian Doctrine. The Baltimore Council Catechism, No. 2.

Third Preparatory Class

Reading. The Christian Brothers' Elementary.

Spelling. The Christian Brothers' Primary Speller, completed.

Arithmetic. Common Fractions. Mental Arithmetic.

Geography. Introductory Lessons.

Penmanship. The Christian Brothers' System, Nos. 3 and 4.

Drawing. Lines and their Combinations.

Christian Doctrine. The Baltimore Council Catechism, No. 1.

Fourth Preparatory Class

Reading. The Christian Brothers' Easy Steps.

Spelling. The Christian Brothers' Primary Speller,

Arithmetic. Tables. Four Fundamental Rules.

Penmanship. The Christian Brothers' System, Nos. 1 and 2.

Geography. Introductory Lessons.

Declamation.

Christian Doctrine. Elementary Lessons. Bible History Stories.

In the hope that friends of Christian Education will remember the needs of the College, the following form of bequest is appended :—

I give and bequeath to La Salle College of the City of Philadelphia, ...*Dollars,* * *to be appropriated by the Trustees for the benefit of the College in such manner as they shall think will be most useful.*

---

* Or to be added to its Endowment Fund, or its Scholarship Fund, or to its Prize Fund.

Feb. 2, Monday, Third Quarter begins. Subjects of Prize Essay and Graduating Theses announced.
Feb. 12, Thursday, Lincoln's Birthday—Holiday.
Mar. 20, Friday, Charter Day (La Salle College).
April 2, Thursday, to Wednesday, April 8, Third Quarterly Written Examination.
April 8, Wednesday, Easter Recess begins at noon.
April 14, Tuesday, Classes resumed. Fourth Quarter begins.
April 24, Preliminary Contest in Elocution, Senior Division.
May 1, Friday, Preliminary Contest in Elocution, Junior Division.
May 11, Monday, Theses of Candidates for a Degree to be handed in.
May 15, Friday, Feast of St. John Baptist de La Salle—Holiday.
May 18, Monday, Senior Division Elocution Contest this week.
May 20, Thursday, Ascension Day—Holyday.
May 25, Monday, Examinations of Senior Class begin. Junior Division Elocution Contest this week.
June 8, Monday, Fourth Quarterly Written Examination.
June 15, Monday, Distribution of Prizes in Academic and Preparatory Classes.
June 17, Wednesday, Commencement Day—Meeting of the Alumni Association.
June 18, Thursday, Competitive Examination for Four Five-year Scholarships beginning September, 1903.

La Salle College

Broad Street above Girard Avenue

LA SALLE COLLEGE is conducted by the Brothers of the Christian Schools, a body of men devoted exclusively to the cause of Christian education. Their aim is to educate under the most approved modern methods in an environment which insures the safeguards of religion. Their methods of teaching have been successful in all parts of the civilized world and in every grade of school. These methods have been handed down to them from their founder, St. John Baptist de la Salle, and perfected by the experience of two centuries. The Brothers have, in consequence, reduced teaching to a science. Christian educators, it is their great aim, not merely to broaden the intellect, but chiefly to cultivate the heart and to mould the Christian gentleman.

History

In 1863, the late Most Rev. James Frederick Wood, D.D., then Bishop of Philadelphia, in conjunction with a committee of Christian Brothers, Reverend Clergy and laymen, obtained from the State of Pennsylvania a charter incorporating La Salle College in Philadelphia.*

The aim was to supply within the limits of Philadelphia the want of a College for higher Catholic education.

The nucleus of La Salle College had already been formed in September, 1862, as the Christian Brothers' Academy attached to St. Michael's Parochial School, at 1419 North Second Street. When the number of students became too large for the accommodations of the building in Second Street, the property at the northeast corner of Filbert and Juniper Streets was bought in 1867, and the classes continued there until June, 1886.

Owing to the constant increase in the number of pupils, the College was forced to seek for more extensive grounds. The Bouvier Mansion on Broad Street, above Girard Avenue, was acquired in December, 1882. In the following September the Academic and the Preparatory Departments of the College were transferred thither, and on the completion of the school buildings† the Collegiate and the Commercial Department were removed to the present location.

---

*An act to incorporate La Salle College in the City of Philadelphia, Pa., approved March 20, 1863.

†The bequest of the late Mr. Francis A. Drexel enabled the College authorities to erect commodious buildings adjoining the Bouvier Mansion.

Location

The location of La Salle College, on Broad Street, above Girard Avenue, is perhaps unsurpassed in Philadelphia. Sufficiently remote from the high roads of business, it is at the same time easy of access from any part of the city. The school buildings have been constructed on modern lines and are commodious, well lighted, heated and ventilated. The class-rooms are thoroughly equipped with all the necessary appliances.

Divisions of the Year

The scholastic year is divided into four terms or quarters. The first begins on the second Monday of September; the second on the third Monday of November; the third on the first Monday of February; and the fourth on the third Monday of April.

College Rules

All students should be present at 8.45 A. M.

No student is allowed to leave the College grounds during the noon recess without permission from the College authorities.

No interruption is permitted in class studies except for grave reasons.

No one may leave the class before 2.30 P. M. without a valid excuse in writing from the parent or guardian. This permission is given by the President on the approval of the teachers in charge.

Lessons omitted on account of absence will be regarded as failures unless made up outside of school hours.

No student will be allowed to drop any subject obligatory in the course which he is pursuing.

Absence from an examination, unless excused by the Faculty, will be considered a failure.

The President of the College reserves the right to determine all questions relating to athletics. Membership in the athletic associations, as well as admission into the gymnasium or play grounds after class hours, is conditional on a satisfactory standing in class studies.

All injury done to the property of the College must be repaired at the expense of the student who caused such damage.

As the College is intended to educate only respectable youths of good behavior, no student will be retained who persists in being insubordinate, or who is known to indulge in vicious habits.

Examinations

Written examinations on the matter studied in the classes are made at the end of each quarter. No student who, in two consecutive examinations, falls below the general average of 60 per cent. will be permitted to continue in a class.

In the Preparatory Classes examinations are more frequent, and no student is allowed to pass from one subject to another until he has given evidence of an adequate knowledge of the subject-matter he has gone over.

Reports

A quarterly bulletin, based upon the written examinations and signed by the President of the College, is sent home at the expiration of each quarter. From this bulletin parents can learn what progress their children are making and whether they devote a sufficient time at home to the preparation of their class work.

Percentages are appreciated as follows: From 100 to 90, excellent; from 90 to 75, very good; from 75 to 60, satisfactory. Any percentage below 60 is to be considered deficient.

Testimonials

Testimonials of merit are given each week: those of the first grade, called "Perfect," to students whose general average is 80 per cent. or over; and those of the second grade, called "Satisfactory," to those whose average in the recitations of the week is between 70 and 80 per cent.

As these testimonials are an unfailing source of emulation, we earnestly desire parents and guardians to see that these testimonials be presented to them each Monday afternoon.

Class Standing and Promotions

The final class-standing of each student is determined by his examination results, together with the average of his year's class-marks in each subject.

A student failing in some of the branches of his class at the examinations may present himself for further examination before the opening of the next college year. If this September examination be successful he will be entitled to promotion with his class.

Attendance

Parents and guardians are respectfully reminded that regular attendance and strict punctuality are absolutely necessary in order to insure the student's success. Whenever a student is detained through sickness or other imperative reason, he is required to acquaint the President by a timely note of excuse.

The school hours are from 8.45 A. M. to 2.30 P. M. A half hour is set apart at noon for luncheon.

Home Studies

Great industry is required for success in life The student's individual efforts count much more than the zeal, earnestness and enthusiasm of the teacher in the formation of those habits which make the successful man.

No time is allowed for the preparation of lessons during the school-day's session. Parents should see that the assigned class lessons are prepared at home.

In order to attain proficiency in the several branches taught in the College, the student should devote at least two hours every evening to the earnest preparation of his home studies. In the higher classes much more time is required for this preparation. Parents and guardians are requested to communicate with the President whenever this preparation is neglected.

Medals and Prizes

Gold medals are offered in the Collegiate Course for English Essay, Oratory, Evidences of Religion, Physics and Chemistry, Mechanical Drawing, Mathematics, and for general excellence in examinations in the Junior, Sophomore and Freshman classes.

Medals are awarded in the Academic Department for Elocution, and for excellence in examinations in the respective classes.

No medal is awarded when the highest average of the competitor falls below 80 per cent.

Medals and special prizes alone will be awarded at the Annual Commencement.

Other class awards based on the Weekly Testimonials for class work will be distributed in the class rooms on the eve of Commencement Day.

Degrees

In 1863, the College was incorporated as La Salle College in the City of Philadelphia, and empowered to confer the degrees of A. B., B. Sc., A. M., and such other degrees as are now conferred by other colleges of the State.

The Degree of Bachelor of Arts is conferred upon students who have made the regular College course, and have attained a minimum average of

GATCHEL & MANNING - PHILA.

70 per cent. in the examinations and daily recitations in the studies of the Senior Year.

The Degree of Bachelor of Science will be conferred on students who successfully complete the course in Chemistry and Electricity, or the course in Civil Engineering.

A Diploma is granted to students who satisfactorily complete the Commercial Course as a guarantee of their fitness for mercantile employment.

The Degree of Master of Arts is conferred upon those graduates who shall have matriculated in one of the learned professions, or pursued a Post-graduate Course at the College, or given evidence of proficiency in some branch of letters or science, provided they have borne a good moral character in the interval. They will also be expected to write on a given subject, a thesis which may be made the Master's Oration at the Commencement, if the Faculty so decide, and a copy of which shall be left in the College.

Honorary degrees are given at the discretion of the Faculty.

Thesis

Every candidate for a degree is required to present a written thesis on a subject connected with his course. The subject selected will be announced by the Professor of the class to which he belongs on or before February 2nd. Such help and guidance may be offered the candidate as the Professor shall judge right, and the completed thesis shall be handed in for approval on or before May 11th.

No thesis shall contain less than two thousand words, unless the reasons adduced are satisfactory. Theses must be typewritten. All approved theses become the property of the College and are placed in charge of the Librarian.

If a student fails to present his thesis, or if the thesis be rejected, he shall not be recommended for his degree.

Scholarships

Four Scholarships affording free tuition at La Salle College for five years are offered each year to competitive examination. These scholarships have been provided in favor of deserving pupils of the Catholic Parochial Schools who are otherwise eligible for such selection.

A note of recommendation from the Rev. Rector of the parish church, or from the principal of the school is required of each candidate.

The examinations to determine the awarding of these scholarships will be held at the College on the two days following the Annual Commencement in June.

It will cover :

English Grammar.

A composition on a given subject.

Mathematics—Arithmetic complete.

Algebra, including Simultaneous Equations of the First Degree.

Mensuration of Surfaces.

United States History.

Geography. Maury's Manual or an equivalent.

Fees

Collegiate Department, per quarter	$25 00
Commercial Department, "	25 00
Academic Department, "	20 00
Preparatory Department, "	15 00
Gymnasium, per year	5 00

Incidental Expenses

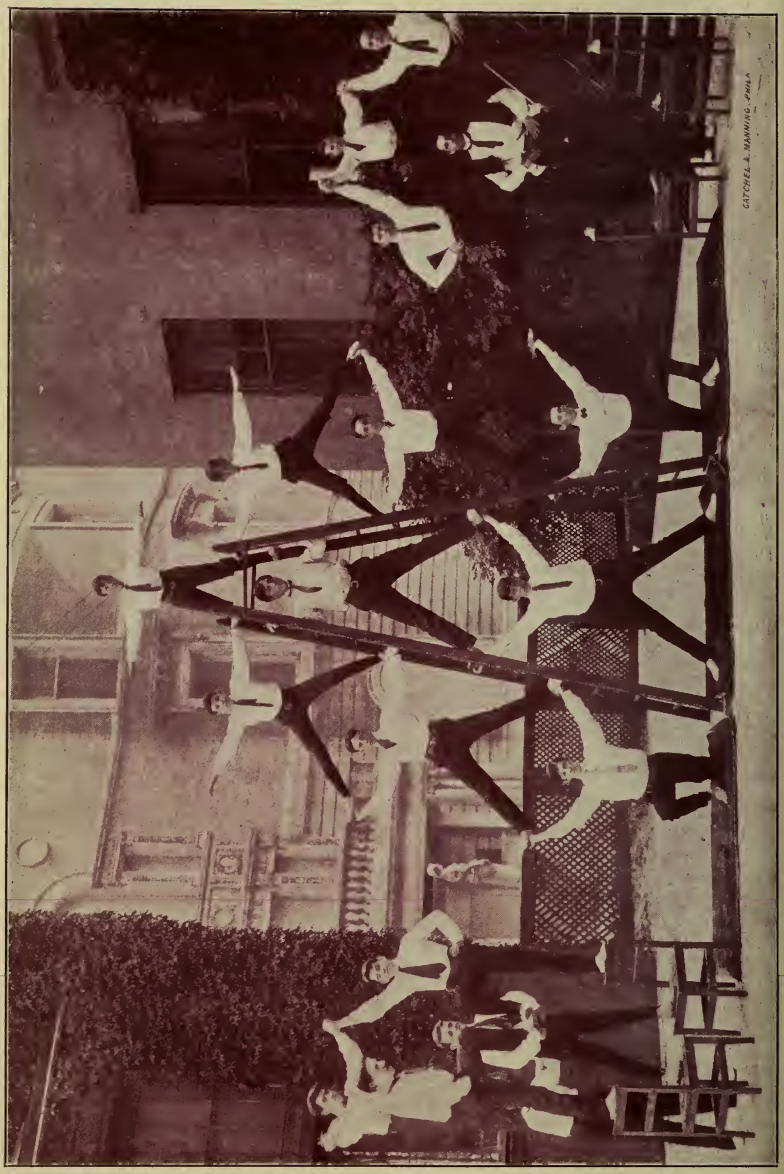
Lunch at College, per quarter	$10 00
Piano or Violin, per quarter	15 00
Violin, in classes of at least three, per quarter	10 00
Use of Chemicals, per year	5 00
Use of Typewriter, per year	5 00
Graduation Fee	10 00
Certificate Fee	5 00

Books and stationery at current prices.

The tuition bills are payable quarterly in advance.

Students may be entered at any time during the year, and are classified according to proficiency.

No deduction is made for a student who withdraws during the quarter except for sickness or dismissal.



GATCHEL & MANNING, PHILA

General Prospectus of Studies

The course of studies at La Salle College is comprehensive and logically graded.

The College offers three departments of study that are a necessary preparation for various walks of life.

I. The Course in Arts which leads through modern languages to the Degree of Bachelor of Arts.

II. (*a*) The Course in Chemistry and Electricity; (*b*) the Course in Civil Engineering; both of which lead to the Degree of Bachelor of Science.

Commercial Department

The Commercial Department provides for the wants of young men who intend to engage in mercantile pursuits. All the subjects considered necessary for a comprehensive modern business training are included in the curriculum. To these are added a course in Chemistry as applied to the industries and manufactures, a course of General Mathematics and Physics.

Academic Department

Besides the College proper, there is an Academic Department. The course requires four years and prepares the student for the Freshman class.

The grade of work is that of the ordinary High School, and requires a well-grounded Grammar School course. From this department the student may enter the College course or take up the Business course.

Preparatory Department

In the Preparatory Department are combined with the studies usually taught in the best grade of Grammar Schools all the advantages of the Select School. It prepares for the Academic Department.

Christian Doctrine

Since the College is conducted by a religious congregation, every attention is bestowed on the moral and religious training of the students. Christian doctrine is taught in all the Collegiate, Commercial, Academic and Preparatory classes. The course in Religious Instruction is as carefully graded as in the other branches of knowledge.

It is chiefly on moral influence and kindly advice that the College authorities rely to secure propriety of behavior and diligence in study.

Philosophy

As the ultimate end in the study of Logic is to train the mind to exactness of Thought, the first part of the Junior Year is devoted to this branch of the subject. The history and origin of Speculative Thought, together with the laws by which it is governed, are thoroughly investigated, thus preparing the student to take up, in the latter portion of the year, the study of Mental Philosophy.

The Senior Year is devoted to the study of Ethics and Psychology. The student is trained to apply the formulæ and the methods of right reasoning to the mooted questions of the day, to correlate the results of approved investigations and researches and to co-ordinate them with their basic principles.

Study of English

Since the vernacular language and literature constitute the essential features of a sound education they receive special attention. No effort is spared to make the student proficient in speaking and writing the English language.

Science

The great importance of science subjects in a system of instruction which aims at being in accordance with the trend of modern ideas has been carefully kept in view. By them habits of observation and an exactness of reasoning are developed which literary studies alone cannot give.

Oratorical Contests

These contests, which are an important feature of the school year, do much to develop in the student literary and elocutionary taste. Besides the private contests at the end of each quarter, a public contest is held by the Senior and Junior Divisions respectively. The Archbishop Ryan Gold Medal is open to the students of the Collegiate and Commercial Departments. This contest is held towards the end of April, and the three pupils obtaining the highest average compete again on Commencement Day.

A Gold Medal for Elocution is given in the Academic and a special premium in the Preparatory Department.

GUTEKUNST & MANNING, PHILA.

Physical Culture

Aware of the importance of physical training, and the part it plays in the harmonious development of the entire man, the Faculty spare no pains to secure for the student all the benefits to be derived from approved modes of exercises. A graded course of Gymnastic exercises is pursued throughout the year under the direction of a distinguished Professor of physical culture. The Students have a regularly organized Athletic Association which encourages approved athletic sport of every description.

The Students' Library and Reading Rooms

A select library of standard authors and periodicals is set apart for the use of the students. The reading room is open at stated times to enable them to consult authorities in the preparation of their theses, or to become acquainted with representative writers.

COURSES OF STUDIES

COLLEGIATE DEPARTMENT

Senior Class

Philosophy. Brother Louis's Special Metaphysics—Cosmology, Psychology, Theodicy.

Ethics. Human Actions, Natural Law, Individual Law, Social Law, International Law.

Religion. Evidences of Religion, Part I., or Bowden-Hettinger's Natural Religion.

Literature. Brother Azarias's Philosophy of Literature. Brother Azarias's Phases of Thought and Criticism. Schlegel's Dramatic Art and Literature.

English Classics. Shakespeare's Hamlet. Macaulay's Essay on Byron. Milton's Lycidas and Hymn on the Nativity.

Elocution. Didactic, Forensic, Dramatic.

History. Schlegel's Philosophy of History.

Mathematics. Differential and Integral Calculus; its Application to Mechanics.

German. Karsten's Deutsche Literaturgeschichte. Gore's German Science Reader. Wenckebach's Die Meisterwerke des Mittelalters. Goethe's Iphigenie. Lessing's Nathan der Weise—Conversations and Essays.

French. Composition—Corneille's Le Cid or Horace. Molière's Le Médecin Malgré Lui or Le Misanthrope. Racine's Phédre or Athalie. Fenelon's Telemaque. La Bruyere's Les Caracteres.

Political Economy. Social Problems.

Junior Class

Mental Philosophy. Brother Louis's Logic, Formal and Applied.—Dialectics. Methodology, Ideology, Motives of Certitude.

General Metaphysics. Brother Louis's.—Idea and Analogy of Being. The Transcendentals. Principles and Causes of Being. Division of Being.

Religion. Evidences of Religion, Part II., or Bowden-Hettinger's Revealed Religion.

English Literature. Brother Azarias's Old English Period. Brother Azarias's Philosophy of Literature. Brother Azarias's Books and Reading.

English Classics. Macbeth. The Tempest. Milton's Minor Poems. Tennyson's In Memoriam. Newman's Dream of Gerontius.

Essays. With a view to cultivate a style suitable to Orations.

Elocution. Didactic, Forensic.

History. Sanderson's Ancient, Part I., completed.

Mathematics. Higher Equations. Analytical Geometry. Differential Calculus.

Physical Science. Organic Chemistry. Laboratory Work. Astronomy.

Linear Drawing. Linear and Isometrical Perspective. Stereotomy. Stone-cutting. Arches, Vaults, &c., from actual measurements of structures.

German. Freytag's Soll und Haben. Schiller's Die Jungfrau von Orleans. Goethe's Poems. Hodge's Scientific German Reader. Wenckebach's Deutsche Literaturgeschichte, Vol. I. Conversation on Familiar Topics.

French. Edgren's French Grammar. Fortier's Histoire de la Litterature Francaise. Moliere's L'Avare. Lamartine's Jeanne d'Arc. Halevy's L'Abbe Constantin. About's Le Roi des Montagnes.

Sophomore Class

Religion. Manual of Christian Doctrine.—The Christian Brothers'.

English Literature. The Christian Brothers', completed. Word Study. Trench's English Past and Present.

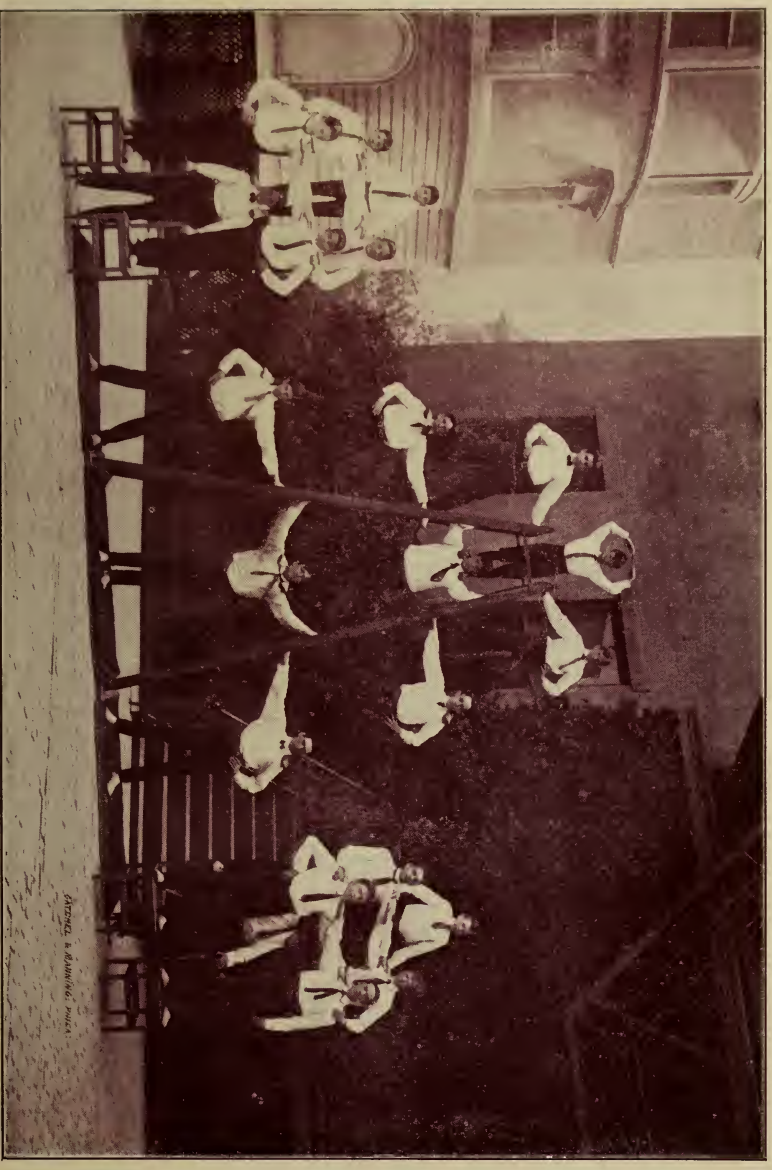
English Classics. Shakespeare's Merchant of Venice, Othello, King Lear. Tennyson's Holy Grail. Canterbury Tales.

Essays. General Subjects—Historical, Critical.

Elocution. Forensic.

History. Sanderson's History, Part II., or Fisher's Mediæval.

Mathematics. Algebra, completed. Trigonometry, Plane and Spherical. Surveying. Navigation.



ENTERED, N. MANNING, PHILA.

Science. Inorganic Chemistry. Physics—Electricity. Optics.

Linear Drawing. Descriptive Geometry. Projection, Intersection, Development and Construction of Solids. Shades and Shadows. Applications to domestic constructions and to the Grecian and Roman Orders of Architecture. Topographical Drawing.

German. Joynes-Meissner's Grammar. Prose Composition. Baumbach's Der Schwiegersohn. Bernhardt's Aus Herz und Welt. Benedix's Der Prozess. Schiller's Maria Stuart or Das Lied von der Glocke. Lessing's Minna von Barnhelm. Colloquial Exercises.

French. Edgren's French Grammar, Syntax. Grandgent's French Exercises and Prose Composition. Jules Verne's L'Expedition de la Jeune Hardie. Bruce's Selections for Sight Translation.

Freshman Class

Religion. Manual of Christian Doctrine.

English Rhetoric. Raub's.

English Classics. Scott's Lady of the Lake. Bryant's Thanatopsis. Burke's Warren Hastings. Macaulay's Essay on Milton.

Literature. Modern Period—The Christian Brothers' Literature.

Essays. Subjects from English Classic Studied.

Elocution. Narrative.

History. Constitutional History of the United States. Sanderson's History, Part II.

Mathematics. Wells's Higher Algebra. Phillips & Fisher's Geometry, Plane and Solid.

Physical Science. Avery's Physics. Overton's Physiology, advanced course.

Linear Drawing. Orthographic Projections. Tinting and Grading. Applications to Parquetry and Paving. Elevation of Joinery Work. The Christian Brothers' Method.

German. Joynes-Meissner's Grammar. Prose Composition. Baumbach's Die Nonna. Schiller's Der Neffe als Onkel. Andersen's Maerchen. Colloquial Exercises based on the Texts read.

French. Muzzarelli's Second Year's Course. L'Histoire d'un Paysan. Muller's Les Grandes Decouvertes Modernes. Nodier's Le Chien de Brisquet.

Commercial Department

First Commercial Class

Christian Doctrine. Manual of Christian Doctrine. —The Christian Brothers'.

English. Raub's Rhetoric.

Composition. Essay Writing.

English Classics. Goldsmith's Vicar of Wakefield. Coleridge's Ancient Mariner. Macaulay's Addison.

Elocution. Didactic.

Bookkeeping. Manufacturing, Intercommunication, American National Banking.

Commercial Law. The Christian Brothers' Manual completed. Richardson's, for reference.

Geography. Tilden's Commercial Geography.

Algebra. Fisher & Schwatt's School Algebra completed.

German. Joynes-Meissner's Grammar. Hillern's Hoeher als die Kirche. Arnold's Fritz auf Ferien.

Phonography. Reporting Style. Day's Manual.

Typewriting. Speed Practice.

Chemistry. As applied to Industries and Manufactures—Elective.

Second Commercial Class

Christian Doctrine. Deharbe's No. 1.

English. The Christian Brothers' Principles of Grammar, Syntax.

Reading. Lamb's Tales from Shakespeare. Longfellow's Evangeline. Webster's Speeches.

Composition. Business Letters, Epistolary Correspondence. Essays.

Elocution. Narrative.

Bookkeeping. The Sadler-Rowe System. Wholesale and Retail. Jobbing and Commission.

Commercial Law. The Christian Brothers' Manual.

Arithmetic. The Christian Brothers' Complete Arithmetic, Equation of Payments to the End. Promiscuous Examples. Mental Arithmetic.

Mensuration. The Christian Brothers' Mensuration, Superficies and Volume of Solids.

Geography. Maury's Manual of Geography, completed.

German. Joynes-Meissner's Grammar. Heyse's L'Arrabbiata.

Penmanship. Sadler & Rowe's Freehand Exercises.

Phonography. Corresponding Style. Day's Manual.

Typewriting. Correct Fingering.

Preparatory Commercial Class

English. The Christian Brothers' Principles of Grammar.

Orthography. Williams & Rogers's Seventy Lessons in Spelling.

Reading. Irving's Sketch Book. Scott's Lady of the Lake.

Composition. Commercial Correspondence. Letter Writing.

Elocution. Narrative.

History. Barnes's History of the United States. Study of the Constitution of the United States.

Geography. Maury's Manual of Geography.

Arithmetic. The Christian Brothers' Complete Arithmetic, Percentage to Equation of Payments. Speed Practice. Mental Arithmetic.

Mensuration. The Christian Brothers' Mensuration, Surfaces.

Penmanship. The Christian Brothers' System. Sadler & Rowe's Freehand Exercises.

Bookkeeping. The Sadler-Rowe System—Induction Set.

Phonography. Day's Shorthand Manual.

German. Ahn's First Course.

Christian Doctrine. Deharbe's No. 1.

Academic Department

First Academic Class

English. Raub's Rhetoric. Swinton's Word Analysis.

English Classic. Irving's Alhambra. Coleridge's Ancient Mariner. Longfellow's Evangeline.

Composition. Descriptions. Character Sketches.

Elocution.

Geometry. Phillips & Fisher's, Books III to VI.

Algebra. Fisher & Schwatt's School Algebra.

History. Sanderson's, Part II.

Geography. Maury's Physical Geography.

Drawing. Elementary Mechanical. Use of Instruments. Geometrical Problems. Lettering. Plans. Elevations.

Science. Avery's Physics.

Christian Doctrine. Deharbe's No. 1, completed. Bible History.

Penmanship. Sadler & Rowe's Freehand Exercises.

Bookkeeping. The Christian Brothers' Manual, completed.

German. Lange's German Method for Beginners. Volkmann's Kleine Geschichten, Hillern's Hoeher als die Kirche.

French. Muzzarelli's First Year's Course. Maistre's Voyage autour de ma Chambre.

CITICHELL & MANNING, PHILA.

Second Academic Class

English. The Christian Brothers' Principles of English Grammar, completed.

English Classics. Hawthorne's Wonder Book. Goldsmith's Traveller.

Composition. Scott & Denney's Elementary Composition. Narratives. Descriptions.

Elocution.

Arithmetic. The Christian Brothers' Complete Arithmetic, reviewed. Mental Arithmetic.

Geometry. Phillips & Fisher's, Books I and II.

Mensuration. The Christian Brothers', Solids.

Algebra. Fisher & Schwatt's Rudiments of Algebra, completed.

History. Constitution of the United States. Civil Government.

Geography. Maury's Physical Geography.

Drawing. Ornamental. Sketching from the Object.

Christian Doctrine. Deharbe's No. 1.

Penmanship. The Christian Brothers' System.

Bookkeeping. The Christian Brothers' Manual, Single Entry.

German. Ahn's Second German Course.

Third Academic Class

English Grammar. The Christian Brothers' Principles of English Grammar.

Reading. The Christian Brothers' Advanced Reader.

English Classics. Hawthorne's Twice-Told Tales. Goldsmith's Deserted Village.

Spelling. Williams & Rogers's Seventy Lessons.

Composition. Letter Writing. Simple Narratives.

Arithmetic. The Christian Brothers' Complete Arithmetic, completed. Mental Arithmetic.

Algebra. Fisher & Schwatt's Rudiments of Algebra, to Involution.

Mensuration. The Christian Brothers' Mensuration, Surfaces.

History. Barnes's History of the United States, Civil War to the Present Time.

Geography. Maury's Manual of Geography, completed.

Elocution.

Drawing. Ornamental. Pen and Ink Work.

Penmanship. The Christian Brothers' System.

German. Ahn's First German Course.

Christian Doctrine. Deharbe's No. 2.

Fourth Academic Class

English Grammar. The Christian Brothers' Principles of English Grammar.

Reading. The Christian Brothers' Advanced Reader.

Spelling. Williams & Rogers's Seventy Lessons. Dictations.

English Classics. Brown's Rab and His Friends. Edgeworth's Waste Not, Want Not.

Composition. Reproduction from Subjects Read. Letter Writing.

History. Barnes's History of the United States, to the Civil War.

Geography. Maury's Manual of Geography.

Arithmetic. The Christian Brothers' Complete Arithmetic. Interest to Equation of Payments. Mental Arithmetic.

Mensuration. The Christian Brothers' Mensuration, to the Circle.

Algebra. Fisher & Schwatt's Rudiments, The Four Rules.

Drawing. Ornamental.

Penmanship. The Christian Brothers' System, Nos. 8 and 9.

Elocution.

Christian Doctrine. Deharbe's No. 2.

Preparatory Department

First Preparatory Class

English Grammar. The Christian Brothers' Principles of English Grammar.

Reading. The Christian Brothers' Advanced Reader.

Spelling. The Christian Brothers' Pronouncing Speller. Daily Dictations.

English Classic. Grimm's Tales.

Composition. Selections from Readings reproduced.

History. Outlines of United States History.

Geography. Maury's Elementary.

Arithmetic. The Christian Brothers' Complete Arithmetic, Percentage to Interest. Mental Arithmetic.

Drawing. Simple Ornaments.

Elocution.

Penmanship. The Christian Brothers' System, Nos. 6 and 7.

Christian Doctrine. Deharbe's No. 3.

GATCHELL & MANNING, PHOTO.

Second Preparatory Class

Reading. The Christian Brothers' Intermediate.

Spelling. The Christian Brothers' Pronouncing Speller. Dictations.

English Grammar. The Christian Brothers' First Lessons.

English Classic. Thaxter's Stories and Poems for Children.

Composition. Selection from Reader or Classic reproduced.

History. Primer of United States History.

Geography. Maury's Elementary.

Elocution.

Drawing. Outlines of Simple Ornaments.

Arithmetic. Decimals and Compound Numbers. Mental Arithmetic.

Penmanship. The Christian Brothers' System, Nos. 4 and 5.

Christain Doctrine. The Baltimore Council Catechism, No. 2.

Third Preparatory Class

Reading. The Christian Brothers' Elementary.

Spelling. The Christian Brothers' Primary Speller, completed.

Arithmetic. Common Fractions. Mental Arithmetic.

Geography. Introductory Lessons.

Penmanship. The Christian Brothers' System, Nos. 3 and 4.

Drawing. Lines and their Combinations.

Christian Doctrine. The Baltimore Council Catechism, No. 1.

Fourth Preparatory Class

Reading. The Christian Brothers' Easy Steps.

Spelling. The Christian Brothers' Primary Speller.

Arithmetic. Tables. Four Fundamental Rules.

Penmanship. The Christian Brothers' System, Nos. 1 and 2.

Geography. Introductory Lessons.

Declamation.

Christian Doctrine. Elementary Lessons. Bible History Stories.
